

Helpful tips as you receive BENLYSTA (belimumab):

Track Your Experience

Keep track of when you take BENLYSTA and how you're feeling each day. This can help your doctor assess how well BENLYSTA is working for you.

You can use a diary, calendar, or even an app.

Schedule and Communicate

- If you are receiving BENLYSTA through a specialty pharmacy, answer their calls or return them quickly to avoid any delays in receiving your medication.
- Coordinate all shipments with enough time to receive your medication on schedule.
- Reach out to your doctor if you have any questions about your treatment schedule.

Use Support Resources

Your doctor is always the best resource, and you can also reach out to your Patient Navigator* for one-on-one support. They can answer frequently asked questions, help you navigate insurance coverage and cost assistance options, and troubleshoot any issues that arise.

*The Patient Navigator does not provide medical advice and is not a part of your doctor's care team.
