

Starting NUCALA (mepolizumab) Checklist

There's always a list of things to do when beginning a new medication. Use this checklist to help make sure you're ready to start NUCALA.

-  Confirm how you'll receive NUCALA with your doctor
-  Learn about the Autoinjector
-  Speak with the specialty pharmacy to confirm prescription and payment, if applicable
-  Schedule treatment and/or medication shipments in advance
-  Review with your doctor what to expect, potential side effects, and when you should call your doctor
-  Set up reminders for when to take NUCALA
-  Create a treatment diary to log your experience and questions for the Navigator

If you have any questions, reach out by calling 1-844-225-5894 (844-Call-TwGSK) Monday–Friday (8:00 AM – 8:00 PM ET)
